## Summary

---

Frontend Developer skilled in building responsive and scalable web applications using React.js, TypeScript, JavaScript, Tailwind CSS, HTML5, and CSS3. Developing full-stack and AI-powered applications using Node.js, Express.js, REST APIs, and databases including MongoDB and MySQL. Strong knowledge of API integration, reusable component architecture, authentication, and modern frontend and backend development practices. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and problem-solving with a focus on user experience, performance optimization, and clean code principles.

## Education

---

**Bachelor of Technology in Computer Science & Engineering**

Expected Graduation: 2027

## Technical Skills

---

**Languages:** C, C++, JavaScript, TypeScript, SQL

**Frontend Technologies:** HTML5, CSS3, React.js

**Frameworks:** React.js, Tailwind CSS, Express.js, Node.js

**Database:** MongoDB, MySQL

**Tools & Platforms:** Git, GitHub, VS Code, Chrome DevTools

**Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Responsive Web Design, State Management, REST APIs

## Projects

---

### AI Learning Assistant (AI Notes Generator)

*React.js, TypeScript, Tailwind CSS, AI API*

- Developed an AI-powered study notes generation platform that creates structured learning content from user prompts using AI API integration.
- Implemented reusable React components, state management, loading indicators, and error handling for improved user experience.
- Designed a fully responsive interface using Tailwind CSS, ensuring seamless usability across desktop and mobile devices.
- Optimized API request handling and frontend rendering to provide faster content generation and smooth application performance.

### LinkedIn-Clone

*React.js, Node.js, Express.js, MongoDB*

- Developed a full-stack LinkedIn clone using React.js, Node.js, Express.js, and MongoDB, implementing user authentication, profiles, posts, and connections.
- Implemented interactive social features including likes, comments, user search, connection requests, and real-time notification updates.
- Integrated JWT authentication, Cloudinary image uploads, and RESTful APIs for secure user management and profile/post media handling.

## Achievements

---

- Developing frontend and AI-integrated web applications using React.js and modern JavaScript technologies.
- Applied Data Structures and Algorithms to strengthen problem-solving and logical reasoning skills.
- Built responsive and mobile-friendly user interfaces following modern UI/UX principles.
- Continuously improving frontend development expertise through hands-on project development and learning.

## Soft Skills

---

- Problem Solving
- Communication Skills
- Team Collaboration
- Adaptability
- Quick Learner
- Time Management
